End-to-end recruitment tracking for construction hiring.

What's Missing:

No "Forgot Password" flow — password reset endpoint placeholder exists in backend but no frontend UI

"Remember Me" works (JWT + cookie)

Rate limiting active (20 attempts/15 min per IP)

Branding is dynamic — colors/logo load from DB, available at GET /api/settings/branding

- Ahmed Hassan moved to HR Interview
- Nadia commented on Senior Site Engineer
- Offer sent to Ahmed Hassan

What's Missing:

Dashboard loads from GET /api/dashboard — KPIs & charts are real server data

"My Tasks" widget is role-scoped — shows different tasks for recruiter vs HM vs interviewer

Charts (SVG bar/funnel) exist in backend but not rendered in this static mockup

Recruiter Load chart not shown here — available at GET /api/dashboard

Karim Adel · Recruiter · Today, 10:30 AM

We need someone with 7+ years in construction site management. The project is in New Cairo — candidate must be willing to relocate.

Nadia Fouad · Hiring Manager · Today, 2:15 PM

Agreed. Also need PMP certification for this role. Please schedule Ahmed Hassan for the HR interview.

Today, 3:00 PM

Ahmed Hassan moved from Screening → HR Interview

Mona Sami · Interviewer · Today, 4:00 PM

HR interview completed. Ahmed scored well on communication and cultural fit. Recommend moving to technical interview.

What's Missing:

Thread API: GET/POST /api/thread/:requestId — messages, file uploads, system events

Supports post types: message, file, cv, feedback, system

Enter to send (Shift+Enter for newline)

File attachments in thread are supported (backend) but not shown in frontend

No @mentions or notifications from thread messages yet — all stakeholders see everything
